Artur Kukharski

UX/UI Developer

SUMMARY

Web development is my job & hobby since 2015. My mission is to **DESIGN & DEVELOP** the best **WEBSITES & WEB APPLICATIONS**. I prefer to work in a friendly, results-oriented team. I like to play volleyball and online games with my friends.

EXPERIENCE

Frontend Developer

Freelancer | February 2019 — Present

- Developed responsive cross-browser websites and web applications using HTML, CSS, JavaScript, jQuery

- Translated layouts from Photoshop and Figma into working websites and web applications.

- Created user interfaces using React components.

- Code refactored for faster operation, performance and troubleshooting.

- Worked in an agile development environment, collaborating with Application Development and Architecture teams.

- Prototyped and developed new customer experiences for internal and external applications with web technologies

Frontend Developer

Centermedia | July 2017 — January 2019

- Built responsive and cross-browser layouts for computers, mobile devices, and spreadsheets

- Worked as a team with designers to find the best solutions for the project

- Developed multi-page websites, eCommerce projects and personal pages

- Automated image optimization and JS and CSS compression with Gulp, which reduced page load time by 30% - 50% Google PageSpeed
